

Age of Empires Expansion: The Rise of Rome

Civilization Technology Trees

updated for v1.1 (Unofficial Patch)

Note about civilization bonuses: while the technology trees provided in the original game manual are correct, the original documentation contains a lot of false information about civilization bonuses (some were wrongly documented, while others bugged in-game). This problem existed since the very first version of the game and most users were never aware of it. The technology trees below contain the correct civilization bonuses as of version 1.1, including the fixed original values.

For more information – [visit the official UPatch HD page](#).
